

Landcover statistics are calculated from the French Creek Watershed Landuse /
Landcover map

The National Land Cover Datasets for Pennsylvania and New York States were
downloaded from USGS (<http://landcover.usgs.gov/natl/landcover.html>) and clipped by
the French Creek Watershed boundary.

The French Creek Watershed boundary was clipped from Pennsylvania and New York
watershed boundaries from PASDA (<http://www.pasda.psu.edu>).

Land Cover Class definition are defined by USGS:
(<http://landcover.usgs.gov/classes.html>)
